App Framework for Higher Ed

eLife™ is the advanced app framework that enables colleges and universities to manage a wide variety of non-academic programs, activities, and data.

- eLife offers cross-platform desktop and mobile app functions that can share data with Banner SIS, web tools, and other productivity apps.
- For use by departments across campus, such as Residential Life, Community Engagement and Volunteerism, Leadership, Student Involvement, Student Union
- Manage housing, programs, and community engagement in a single app
- eLife provides tailored functionality for professional staff, RAs, and student workers
- Advanced security and extensive reporting features. Over 16 levels of user access.
- Customization is available for a university's unique needs.

Typical SIS Ecosystem

- Main SIS
- Multiple platforms
- Multiple vendors
- Other needs relegated to Excel, Google Docs

SIS Ecosystem with eLife & Custom Apps

- Fully custom apps
- Fewer platforms
- Fewer vendors
- Range of additional needs addressed
